

Modular bell transformer, 100% duty cycle

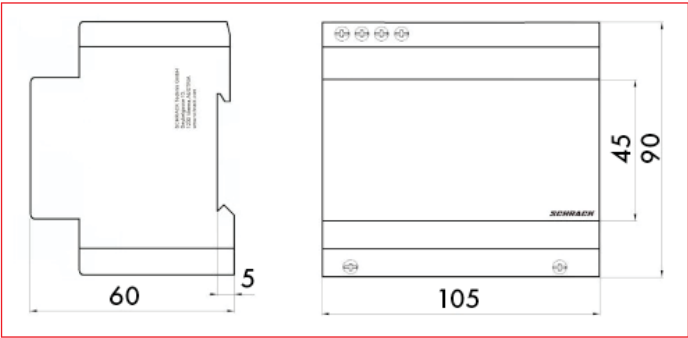

BZ326579-A

Schrack-Info

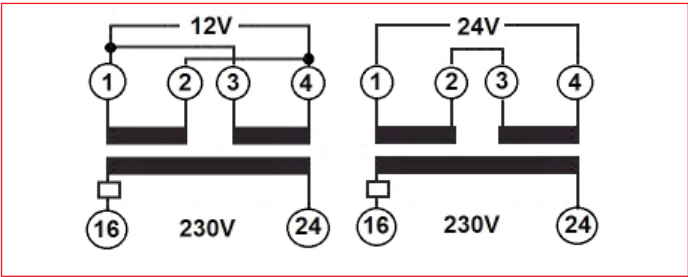

- Safety isolating transformer for general use acc. EN 61558-2-6
- 100% duty cycle
- Secondary voltage 12V and 24V 50Hz
- Rated output 63VA
- PTC included for protection

Type:	BZ326579-A
Nominal Power	63VA
Standards	EN 61558-2-6
Type	short circuit proof safety transformer
Endurance	100%
Primary Nominal Voltage	230V-AC
Secondary voltage / current 1	12V-AC / 2,62A
Secondary voltage / current 2	12V-AC / 2,62A
Secondary voltage / current 3 (1+2 in sequence)	24V-AC / 2,62A
Secondary voltage / current 4 (1+2 connected parallel)	12V-AC / 5,25A
Rated frequency	50/60 Hz
Protection class	2
Degree of protection	IP20
